**Find it EZ Announces Strategic Partnership  
with Crystal Migration Services**

*Kelowna, BC* Today [Find it EZ Software Corp.](#) announced a strategic partnership with [Crystal Migration Services Corp.](#), a global leader in Crystal Reports to SSRS migration.

“Find it EZ is committed to improving business intelligence, database analysis and development processes with the world's first fully integrated software change management tool. It's productivity software for developers, by developers who know their pain!” said Ken Gnazdowsky, co-founder and CEO of Find it EZ Software Corp. “Our relationship with Crystal Migration Services allows us to extend our market reach with a partner specializing in two of our core supported technologies. Our Microsoft award winning software is a perfect complement to their service. Together, we can solve a common problem to better manage report migration from one vendor to another.”

Crystal Migration Services Corp. provides best-in-breed report conversions to companies across the globe. The leading-edge software services can transform legacy Crystal Reports into Microsoft Reporting Services faster, more accurately, and at a lower cost than anyone else in the industry.

“Find it EZ Code Search is a powerful search and impact analysis tool to help report designers.” said George Su, CEO of Crystal Migration Services Corp. “Teaming up with Find it EZ will allow us to reach more Crystal Reports customers who want to move to SSRS.”

### **About Find it EZ Software Corp.**

Find it EZ Software Corp. is a software development tool vendor with headquarters in the heart of the Silicon Vineyard, Kelowna, BC, Canada ... home of Club Penguin and Disney Online Studios. Find it EZ was founded in 2010 as a spin-out of Bits n' Bytes Software Inc. with customers throughout the USA, UK, Canada, Australia and New Zealand who depend on its automated change impact analysis software. Find it EZ is an award winning global leader in productivity software for developers.

Whenever changes are planned or made to the underlying database in any software application, it can be a challenge to find all referenced code that can be affected. Normally, each software layer or programming language would require time-consuming and disconnected analysis with a variety of tools. Find it EZ provides a full 360 degree view of the entire code-stack in a single pass. Search and document Crystal Reports, SSRS, SQL Server, Oracle, MySQL, Excel and more for complete change dependency analysis with just one integrated tool.
